

## **7,8-Dihydropterin**

Product number 11.906

Dihydropterin as a powder can't be manufactured because of its instability. We recommend that you synthesize it according to SJR Heales and Hyland, Production of stable solutions of 7,8-dihydropterin, Pteridines, 1, (1989), 151, starting with tetrahydropterin (product no. 11.909).
